# V. SURYA

**B.Tech Information Technology Student | MERN Stack Development Enthusiast | Aspiring Software Developer**

+91 8270793109 | vsurya2107@gmail.com | github.com/vsurya2107-arch | linkedin.com/in/v-surya-689436387

## EDUCATION

**B.Tech – Information Technology**

Suguna College of Engineering

## RELEVANT AREAS OF INTEREST:

Software Development | MERN Stack Development

Web Technologies | Database Systems

## PROFESSIONAL SUMMARY

Enthusiastic B.Tech Information Technology student with a strong passion for software development and modern technologies.

Proficient in **MERN Stack, JavaScript, MongoDB, Python, C++, HTML, and CSS.**

Experienced in building full-stack web applications from scratch and solving real-world problems.

Seeking an internship opportunity to apply skills, gain industry experience, and contribute to meaningful projects.

## TECHNICAL SKILLS

### 1. MERN STACK

- MongoDB
- Express.js
- React.js
- Node.js

### 2. PROGRAMMING LANGUAGE

- JavaScript
- Python
- C++

### 3. WEB TECHNOLOGY

- HTML5
- CSS3
- Responsive Web Design

### 4. DATABASE

- MongoDB

### 5. TOOLS AND TECHNOLOGY

- Git
- GitHub

## MAIN PROJECTS

**1 HOMIQ – Smart Digital Platform for Home Construction**
Digital platform to simplify home construction by connecting homeowners with engineers and construction professionals.

**2 PASUMAI – Crop Disease & Pest Management System**
Smart agriculture system to detect crop diseases and pests, providing timely solutions and recommendations to farmers.

**3 Mule Account Detection System**
System to detect and prevent multiple/fake accounts using behavior analysis and rule-based logic.

**4 AI Sign Language Translation**
AI-based web application that translates sign language gestures to text/speech in real-time using machine learning.

**5 E-Commerce Website**
Full-stack e-commerce platform with product browsing, cart, secure checkout, and user authentication.

## OTHER PROJECTS

**1 Live News Application**
Fetches and displays live news dynamically for an interactive user experience.

**2 Weather Application**
Displays real-time weather information through an interactive UI.

**3 Movie Search Application**
Searches and explores movie-related information dynamically.

**4 Todo Application**
Task management application for creating, organizing, and managing daily tasks.

**5 Sign-Up & Authentication System**
User registration and authentication system for secure access and management.

**6 Book Management System**
Application to manage book-related information and basic data operations.

## CERTIFICATIONS

- **Full Stack Development – GUVI**
  In collaboration with HCL & IIT Guidance
  Comprehensive training on full stack development using modern web technologies.
- **JavaScript – GUVI**
  In collaboration with HCL & IIT Guidance
  Certification in core JavaScript concepts and practical web development.
- **MongoDB – MongoDB Official Platform**
  Completed MongoDB training and gained knowledge in database concepts and operations.

## TECHNICAL ACTIVITIES

- Participated in Technical Workshops
- Presented Papers in Academic Events
- Participated in Hackathons
- Participated in Academic Technology Events

These activities enhanced my technical knowledge, problem-solving, teamwork, and communication skills.

## LEADERSHIP & MENTORING EXPERIENCE

**Student Technical Mentor**

- Teaching MERN Stack Development to 21 junior students.
- Helping juniors understand front-end, back-end, and database concepts.
- Monitoring their progress and supporting skill development.
- Guiding students across different development domains.
- Strengthened leadership, communication and team coordination skills.

## LANGUAGES

- **Tamil** – Native / Professional Proficiency
- **English** – Professional Working Proficiency

## INTERESTS

**Fitness & Bodybuilding**
Passionate about fitness and bodybuilding which builds discipline, consistency, determination and helps me stay focused on personal and professional growth.

## CAREER OBJECTIVE

To obtain an internship opportunity in a growth-oriented organization where I can apply my knowledge of MERN Stack development, software development, and web technologies, gain practical industry experience, and continuously improve my technical and professional skills while contributing effectively to the team.
